

CONTRACT AWARDED**Five new contracts
of electricity distribution in Mozambique**

EDM – Electricidade de Moçambique awarded to SETH the extension of five lots of the project “Primary Network and Grid Extension and Customer Connections (Lots 2, 4, 5, 7 & 8).

The projects concern the implementation of 200 kilometres of medium voltage lines, 1000 kilometres of low voltage lines, including the installation of 335 distribution transformers and the connection of 66,000 consumers.

The total amount of the 5 contracts reach the value of USD 38,850,000.00.

The 5 contracts include works in several provinces of Mozambique (Maputo, Tete, Nampula and Manica) and they are financed by the World Bank, Organization of Petroleum Exporting Countries (OPEC), European Investment Bank and French Development Agency.

The work will be executed during 18 months, starting in June 2014.

SETH is present in Mozambique and performs electricity projects since 2005.
